

Amendment to the Specification

- 1. Please replace page 2, third paragraph, lines 11-19 with:*

“Therefore, the present invention is derived to resolve the above disadvantages and problems of the related art and has an object to provide continuously variable transmission in the gear type, which includes a main shaft 21 22 and an auxiliary shaft 22, each being formed with shaft grooves 25 (Fig. 3) in the center and hollow parts 26 Fig. 3 at a side to incorporate transmission varying elements and provided with control levers 61, 62, pinion gears 306, 307, and rack gears 71,72 in the center portion,”

- 2. Please replace page 3, fifth paragraph, lines 12-17 with:*

“According to the present invention, the main shaft 21 and the auxiliary shaft 22 are formed with the grooves for control levers 61, 62 and the pinion gears levers 306, 307 in the center, wherein the grooves for the pinion gears 306, 307 are in parallel to the grooves for the control levers 61, 62 apart from the grooves for the control levers 61, 62.”
